RE: HANSEN ASSOCIATES, ARCHITECTS AND PLANNERS
Fani Danadjieva Hansen, AIA, Partner-in-Charge

As a member of the City of Pinole Administrative Staff and having worked closely with members of the Architectural Firm of Hansen Associates, and in particular, Fani Hansen, I feel I am in a position to provide testimony in behalf of the Association.

In a recent process of preparing bids for a Public Safety Facility and City Offices Complex, the fact that the bids came back 5.6% lower than projected was a case in point attesting to their ability to project reliable cost estimates.

Of importance to the overall relationship is the cooperative, punctual and accommodating manner in which this team of professionals handle a project. They are noteworthy in their dedication to punctuality as it applies to keeping appointments and meeting deadlines. Through my association with this Firm of Architects and Planners I have found them to be especially hard working and thorough in the preparation of project material, resulting in accurate and conceptually prudent presentations.

I have the highest respect for the capabilities of all members of the firm of Hansen Associates, and feel very confident in recommending the Firm for Architectural Design and Planning, and for the great degree of professionalism they display in meeting project demands.

Alex A. Clark
